PAGES 1 ENCLOSURES (NO. & TYPE)

REMARKS

25X1

1. Thirty-six twin-engine bombers were standing on the eastern edge of the Welzow (N 52/A 44) airfield. The planes were of the same type as those stationed at the Drewitz (O 52/A 68) airfield. They had red and yellow propeller hubs and single cockpit. Bombs were lying beside 22 planes. Two biplanes made local flights.*
2. There were no hangars. The landing field was sodded. A radio truck was standing on the southeastern edge of the field. There was no special guard at the field. There were no AA guns. **

* Comment. The occupation of the field by a bomber regiment has been confirmed by other sources. The regiment was previously stationed in Finsterwalde.

** Comment. The information on the status of the field agrees with previous observations.
